Agenda EPA meeting Exploration Permit 7-15-13.pdf

Hi Erin –

We pulled together a more formal agenda for you, attached. I'm going to be out of the office July 18 – 23 but will have e-mail access if you have any questions about the agenda or our upcoming meeting.

Also, I'll give you a call tomorrow afternoon regarding scheduling a time with you for the Geotechnical educational presentation we're pulling together. We were going to try and have the meeting this week but it's looking more and more like next week will work better. Are you in the office next week say the 25th?

Lana

Thank you, Lana.

I will forward these documents to Hanh Shaw (who is out of the office until July 22) and Tim Mayers. Please note we are having significant network issues and are only getting intermittent access to email and phone lines today. Sorry for any inconvenience.

Also, please let me know (by July 23) what agenda items you/Shell would like to discuss during our July 30 meeting.

Thanks,

-Erin

Subject: Draft EMP-Appen A and QAP for AKG_28_8100

Good Morning Erin,

Please find the attached draft EMP report, Appendix A of the EMP and the QAP for coverage under the NPDES permit AKG 28 8100. As discussed with you in early May Shell would provide you with the draft versions of these document for your review so that we may discuss and address any concerns prior to submitting the final versions of the reports with the NOI's in Sept. As you are aware we will be seeking coverage for our 2014 season.

We are still planning on coming down to discuss any questions and or concerns we may have at the end of July. We hope this will provide you with adequate time to review these documents prior to our anticipated visit at the end of July.

Let me know if you have any questions or concerns.

Best,

Lana Davis
